Forecast for Monday 07 Dec 2020

Weather: Patchy low cloud at first with some fog in the glens soon dispersing. Some good sunny spells through the day. Clear spells at first this evening but becoming cloudy with winds strengthening on the tops.

Chance of cloud free mountain/hill tops above 800m: 90%, but 60% at first, especially over the Trossachs.

Visibility: Generally very good during the day, away from any early cloud in the Trossachs.

Met Office Aberdeen Meteorologist's View
Nothing to add

Forecast for Tuesday 08 Dec 2020
Weather: Further rain, with snow above 750m, heavier and more persistent towards the Nevis Range but elsewhere lighter and more occasional. During the day mostly cloudy with further showers, these mainly of rain, but still snow above around 900m.

Maximum wind: Northwesterly 35 gusts 50mph in early hours easing 20 gusts 30mph during the day but still 30 gusts 40mph over the island ranges.

Chance of cloud free mountain/hill tops above 800m: 10-20% through daylight hours with cloud down to 5-600m, best chance of clearances in the Trossachs.

Visibility: Moderate, sometimes good at lower levels and during drier spells, occasionally poor in rain and hill snow.

Temperature: **Glens:** Plus 6 Celsius
At 800m: Plus 1 Celsius.
Freezing level: Varying 800-1000m
